## Professional Experience

2023- RUTGERS, THE STATE UNIVERSITY OF NEW JERSEY  
*Assistant Professor*, Department of Statistics.

## Education

2017-2023 CARNEGIE MELLON UNIVERSITY  
Ph.D. in Statistics. Advisor: Edward H. Kennedy.  
Dissertation: “Topics in nonparametric causal inference.” ([download link](#))

2017-2019 CARNEGIE MELLON UNIVERSITY  
M.S. in Statistics.

2012-2016 HARVARD UNIVERSITY  
B.A. *cum laude and high honors* in Statistics.  
Thesis: “A study on tests of MCAR.” Advisor: Victoria Liublinska

## Other Work Experience & Training

2016-2017 CORNERSTONE RESEARCH  
Analyst

2014-2015 HARVARD BUSINESS SCHOOL  
Research Assistant for Professors Josh Lerner, Erin Scott and Pian Shu

## Awards & Honors

2023 Umesh K. Gavasakar Best Dissertation Award, Dept. of Statistics & DS, Carnegie Mellon  
2023 “Student of the Year” Award, the American Statistical Association, Pittsburgh Chapter  
2022 Graduate Student Assembly/Provost Conference Funds  
2020 Winner of 2020 JSM Student Paper Award– Statistics in Epidemiology Section  
2020 Graduate Student Assembly/Provost Conference Funds  
2019 Graduate Student Assembly/Provost Conference Funds  
2019 “Best TA of the Year” Award, Carnegie Mellon University, Statistics & Data Science Department  
2018 Graduate Student Assembly/Provost Conference Funds  
2014 Harvard Business School PRIMO Fellowship  
2013-2014 Harvard College Scholar

## Publications & Manuscripts

(Note: \* indicates equal contribution)

13. [Bonvini M](#), Kennedy EH, and Keele LJ. Minimax optimal subgroup identification. [arXiv:2306.17464](https://arxiv.org/abs/2306.17464)

12. Levis A, Bonvini M\*, Zeng Z\*, Kennedy EH, and Keele LJ. Covariate-assisted bounds on causal effects with instrumental variables. [arXiv:2301.12106](https://arxiv.org/abs/2301.12106).
11. Bonvini M, Kennedy EH, Ventura V, and Wasserman L. Sensitivity analysis for marginal structural models. [arXiv:2210.04681](https://arxiv.org/abs/2210.04681).
10. Bonvini M and Kennedy EH. Fast convergence rates for dose-response estimation. [arXiv:2207.11825](https://arxiv.org/abs/2207.11825).
9. Bonvini M, Kennedy EH, Ventura V, and Wasserman L. Causal inference for the effect of mobility on COVID-19 deaths. *Annals of Applied Statistics*. 16 (4), 2458-2480, 2022. doi:10.1214/22-AOAS1599.
8. Bonvini M\*, McClean A\*, Branson Z, and Kennedy EH. Incremental causal effects: an introduction and review. *Handbook of Matching and Weighting in Causal Inference* (to appear). [arXiv:2110.10532](https://arxiv.org/abs/2110.10532).
7. Kennedy EH, Bonvini M\*, and Mishler A\*. Comment on “Statistical Modeling: The Two Cultures” by Leo Breiman. *Observational Studies*, 7 (1), 145-156, 2021. doi:10.1353/obs.2021.0001.
6. Scharfstein DO, Nabi R, Kennedy EH, Huang MY, Bonvini M, and Smid M. Semiparametric sensitivity analysis: unmeasured confounding in observational studies. [arXiv:2104.08300](https://arxiv.org/abs/2104.08300).
5. Bonvini M and Kennedy EH. Sensitivity analysis via the proportion of unmeasured confounding. *Journal of the American Statistical Association*, 1-31, 2021. doi.org/10.1080/01621459.2020.1864382.  
- Winner of 2020 JSM Student Paper Award (Statistics in Epidemiology Section)
4. Dauvin A, Donado C, Bachtiger P, Huang K, Sauer CM, Ramazzotti D, Bonvini M, and Celi LA. Machine learning can accurately predict pre-admission baseline hemoglobin and creatinine in intensive care patients. *npj Digital Medicine*, 2 (1), 1-10, 2019. doi.org/10.1038/s41746-019-0192-z.
3. Pricolo VE, Viani K, Bonvini M, Abelli C, and McDuffie T. Challenges in management of squamous cell carcinoma of the anus in New England and across the United States - a review of the National Cancer Data Base. *American Journal of Clinical Oncology*, 41 (7), 662-666, 2018. doi:10.1097/COC.0000000000000369.
2. Pricolo VE, Bonvini M, and Abelli C. Patterns of care for anal cancer in the United States: a comparison between academic and community cancer centers. *BMC Cancer*, 18 (1), 567, 2018. doi:10.1186/s12885-018-4488-1.
1. Pricolo VE, Fei P, Crowley S, Camisa V, and Bonvini M. A novel enhanced recovery protocol for colectomy, combining multimodal analgesia with pharmacologic intervention, reduces postoperative opioids use and hospital length of stay. *International Journal of Surgery Open*, 13, 24-28, 2018. doi.org/10.1016/j.ijso.2018.07.007.

### Invited Talks & Conference Presentations

11. International Conference on Computational & Methodological Statistics, London, UK. (12/2022)
10. QTM Seminar Lecture at Emory University, Atlanta, GA. (10/2022)
9. International Chinese Statistical Association— Applied Statistics Symposium, Gainesville, FL. (6/2022)
8. American Causal Inference Conference, Berkeley, CA. (5/2022)
7. International Conference on Computational & Methodological Statistics, Online. (12/2021)
6. Joint Statistical Meetings, Online. (8/2020)
5. International Conference on Computational & Methodological Statistics, London, UK. (12/2019)
4. Joint Statistical Meetings, Denver, CO. (7/2019)
3. Atlantic Causal Inference Conference, Montreal, Canada. (5/2019)
2. Joint Statistical Meetings, Vancouver, Canada. (8/2018)
1. Atlantic Causal Inference Conference, Pittsburgh, PA. (5/2018)

### Referee Service

*Statistical & Methodological Journals*

Annals of Statistics, Biometrics, Biostatistics, Electronic Journal of Statistics, Epidemiology, International Journal of Biostatistics, Journal of Causal Inference, Journal of Machine Learning Research, Journal of the American Statistical Association, Journal of the Royal Statistical Society: Series B, Observational Studies, Statistics in Medicine

*Other Scientific Journals*

Circulation

**Software**

*sensitivitypuc*: R package for performing sensitivity analysis via the proportion of unmeasured confounding. ([github.com/matteobonvini/sensitivitypuc](https://github.com/matteobonvini/sensitivitypuc))

**Teaching Experience**

*As Primary Instructor at Rutgers*

Regression Analysis in Finance (16:598:563), Fall 2023

*As Primary Instructor at Carnegie Mellon*

Introduction to Statistical Inference (36-226 U), Summers 2019, 2020

*Guest Lectures at Carnegie Mellon*

Modern Regression (36-401), Fall 2021

Modern Causal Inference (36-732), Spring 2020

Undergraduate Advanced Data Analysis (36-402), Spring 2019

*As Teaching Assistant at Carnegie Mellon*

Modern Regression, Head TA (36-401), Fall 2020

Undergraduate Advanced Data Analysis, Head TA (36-402), Spring 2019

Statistical Graphics and Visualization (36-315), Fall 2017, Spring 2018
